
PROFESSIONAL EXPERIENCE

- 2005–Present **President** – *Bright Street, Inc (Berkeley, CA)*
Founder of real estate development, project management, architecture, and inspection firm. Currently managing the development of 50 mixed-use, multi-family condominiums. Other projects include development of a 22,000 square foot student housing project near UC Berkeley.
- 2003–2005 **Project Manager** – *Panoramic Interests (Berkeley, CA)*
Development team member for construction of 100-unit, mixed-use, multi-family building. Tasks include coordination of general contractor, architect, investors, and financial institution; reviewing RFIs; negotiating contracts; obtaining building permits; and managing budget.

Managed reconstruction of defective exterior wall of downtown Berkeley, high-rise mixed-use, multi-family building. Prepared budgets and defect matrix while coordinating consultants and attorneys for corresponding water intrusion investigation and construction defect lawsuit.
- 1998–2003 **Project Manager** – *Integrated Structures (Berkeley, CA)*
Managed design and development of a proposed 64,000 SF mixed-use housing project for the Berkeley campus of the American Baptist Seminary of the West. Responsibilities included interfacing with clients, Berkeley Planning Department, and neighborhood groups to obtain entitlements. Zoning Adjustments Board approved project June 2002; project was appealed to City Council in 2003 and is currently pending EIR process.

Previous work included management and coordination of construction of \$3 million, 20,000 SF renovation and retrofit of landmarked building designed by Julia Morgan for the American Baptist Seminary of the West campus. Negotiated contracts, managed budget, obtained building permits, managed subcontractors, interfaced with clients, and synchronized construction with ongoing design process.
- 1997–1998 **Project Manager/Draftsman** – *Jeff Shelton Architect (Santa Barbara, CA)*
Managed construction documents for a 2,400 SF adobe home in Santa Barbara hills.

- 1996–1997 **Draftsman** – *Andy Neumann Architect (Santa Barbara, CA)*
Built 3-D CAD models and produced working drawings for several residential and commercial projects.
- 1996–1997 **Construction Manager/Carpenter** – *Redhorse Constructors (San Rafael, CA)*
Construction management for this firm included creating schedules, estimates, and organizing safety program. Prior to assuming management responsibilities, worked as a carpenter on several high-end residential projects.
- 1993–1995 **Project Manager/Teacher** – *Sim Van der Ryn and Associates (Sausalito, CA)*
Implemented an ecological design curriculum at San Domenico School. Planned and led classes integrating ecological principles with traditional coursework. Collaborated with students and teachers to design and build a garden classroom utilizing clay/straw walls and 95 percent recycled materials.
